

## 2019 Subject Index

Acetylcholine receptor deficiency.....	356	Electroencephalography.....	336
Actinomycosis.....	135	Embolization.....	158
Acute bronchiolitis.....	51	Epileptic encephalopathy.....	213
Acute rheumatic fever.....	37	Escherichia coli.....	322
Adenovirus.....	314	Exclusive breastfeeding.....	94
Adolescence.....	307	Exon-array.....	148
Adolescent.....	1, 259	Extended-focused trauma ultrasonography.....	329
Anomalous head posture.....	70	Extracardiac anomalies.....	280
Anticoagulant reactants.....	24	Fanconi Bickel Syndrome.....	155
Association.....	247	Febrile neutropenia.....	99
Atelectasis.....	359	Feeding method.....	94
Atypical location.....	86	Fetal anomaly scanning.....	280
Autoerythrocyte sensitization syndrome.....	83	Fetal echocardiography.....	280
Awareness.....	292	Fever.....	347
Belief.....	220	Fibrinolytic system.....	24
Bloodstream infection.....	180	Fibrinous bronchitis.....	166
Body posture.....	104	Fluoroquinolone.....	322
Brief resolved unexplained event.....	336	Fontan operation.....	166
Brucellosis.....	347	Game.....	18
Burn.....	128	Gastritis.....	259
Burnout.....	266	Giant cell tumor of bone.....	256
Carbapenem-resistant gram-negative microorganism.....	180	Glycogen storage disease Type XI.....	155
Cardiac magnetic resonance imaging.....	203	Gonadotropin-releasing hormone analogues.....	29
Cardiovascular anomalies.....	203	Gram-negative bacteremia.....	99
Caries risk factors.....	12	Griscelli Syndrome.....	252
Carotis intima media thickness.....	121	Growth.....	186
Central precocious puberty.....	29	Head posture.....	104
Chemotherapy.....	256	Headache.....	80
Child.....	64, 99, 110, 186, 228, 266, 299, 347	Hematopoietic stem cell transplantation.....	252
Childhood.....	86	Hemophagocytic lymphohistiocytosis.....	252
Childhood epilepsy.....	213	Hereditary neuropathy.....	163
Children.....	1, 24, 208, 234	High risk.....	336
Children with cancer.....	141	High-energy trauma.....	329
Chloral hydrate.....	286	Hospitalization.....	314
Chronic urticaria.....	192	Hyperbilirubinemia.....	7
Ciprofloxacin.....	322	IL-1 $\beta$ .....	247
Complications.....	115	Infant.....	314
Computerized tomography.....	286	Infants.....	12
Congenital heart diseases.....	280	Information seeking.....	141
Congenital myasthenic syndrome.....	356	Intellectually disabled.....	266
Congenital tooth agenesis.....	88	Intraabdominal cyst.....	77
Conscious sedation.....	286	Intractability.....	213
Cranial nerve palsy.....	80	Intranasal midazolam.....	286
Crohn's Disease.....	353	Juvenile myasthenia gravis.....	73
Cryopyrin.....	247	KINDL.....	208
CT.....	77	Kidney function.....	234
Cytokines.....	121	Klebsiella pneumonia.....	322
Dengue infection.....	242	Knowledge.....	220
Dentist.....	353	Leiomyoma.....	86
Developmental.....	299	Leishmania.....	110
Diabetic ketoacidosis.....	73	Liposomal Amphotericin B.....	110
Diamond-Gardner syndrome.....	83	Liver.....	115
Diplopia.....	70	Liver transplantation.....	208
Early diagnosis.....	88	Love.....	299
Eating habits.....	18	Lysosomal storage diseases.....	292

## 2019 Subject Index

Maternal anemia.....	342	Preseptal cellulitis.....	64
Mean platelet volume.....	37, 51, 192	Pressure neuropathy.....	163
Media devices.....	307	Preterm infants.....	94
Mesenteric lymphangioma.....	77	Prevention.....	234
Metabolic diseases.....	115	Primary care physicians.....	292
Microarray analysis.....	44	Primary immunodeficiency.....	1
Microtubule-associated protein 2.....	148	Procalcitonin.....	99
Migraine.....	80	PSQ.....	307
Migration.....	77	Psychiatry.....	1
Multiplex ligation-dependent probe amplification.....	163	Psychogenic purpura.....	83
Mother.....	266, 228	Psychology.....	299
MRI.....	77	Pulmonary sequestration.....	158
Mucopolysaccharidoses.....	121	Quality of life.....	1, 208, 259
Mutation.....	155	Rebound bilirubin.....	7
N-acetylcysteine lavage.....	359	Recurrent tonsillitis.....	135
Neck circumference.....	234	Refractory solid tumors.....	197
Neonatal period.....	155	Reliability.....	56
Netnography.....	141	Resistance.....	322
Neutrophil-to-lymphocyte ratio.....	192	Respiratory syncytial virus.....	51, 314
Neutrophil/lymphocyte ratio.....	37	Respiratory tract infections.....	314
Newborn.....	7, 256, 359	Rhinovirus.....	314
Newborn weight.....	342	Salvage chemotherapy.....	197
NLRP3.....	247	Scale.....	56
Non-metabolic diseases.....	115	School age children.....	18
Nursing.....	299	School health.....	169
Nutrition education.....	18	School nursing.....	169
Obesity.....	29, 228	Severity.....	242
Ophthalmoplegy.....	80	Short term probiotics.....	12
Oral bacteria.....	44	Sleep.....	128, 259
Oral cavity.....	353	Sleep latency.....	307
Orbital cellulitis.....	64	Sleep quality.....	307
Orbital myositis.....	70	Social support.....	266
Overweight.....	228	Spinal muscular atrophy.....	148
Pain.....	220	Superficial.....	86
Parent.....	56, 141	Surgical resection.....	158
Parenting.....	56	Survey.....	292
Pediatric critical care unit.....	180	Survival.....	115
Pediatric dentist.....	88	The internet.....	141
Pediatric emergency.....	329	TMD.....	104
Pediatric nurse.....	220	TMJ.....	104
Pediatrician.....	88	Tonsillar hypertrophy.....	135
Pediatrics.....	128, 299	Tonsillectomy.....	135
Peer bullying.....	169	Transplantation.....	115
Phototherapy.....	7	Turkey.....	110
Placental weight.....	342	Turner syndrome.....	44, 203
Plastic bronchitis.....	166	Type I diabetes mellitus.....	73
Platelet.....	37	Urinary tract infection.....	186
Platelet distribution width.....	37	Urinary tract infections.....	322
Platelet indices.....	242	Validity.....	56
Pneumonia.....	24	Vascular involvement.....	121
Polymorphism.....	247	Vesicoureteral reflux.....	186
Practice.....	220	Visceral leishmaniasis.....	110
Preadolescent stage.....	169	VTC treatment.....	197
Prediction.....	51	Wrist circumference.....	234
Predictor factors.....	213
